

## ENVIRONMENTAL POLICY STATEMENT

**June 2018**

The Directors and Managers of Enquin Limited share a commitment to achieve environmental best practice throughout its business activities, wherever this is practicable.

They recognise that the operation of a viable business and a healthy environment must be closely linked and that ecological protection and sustainable development are collective responsibilities in which governments, businesses, individuals and communities all have a role to play.

In Enquin our policy is to seek continuous improvement.

Through education and support we shall ensure that our staff members conduct their activities in an environmentally positive manner.

Similarly, we shall advise our Clients of and encourage our clients to fully consider the environmental implications of their businesses activities.

We recognise that environmental risks need to be included in all risk assessments.

We shall endeavour to ensure that our suppliers maintain good environmental practices.

Enquin will follow the principles of ISO EN 14001 in the management of those aspects of the business that have environmental significance including:

- Meeting applicable Government guidelines, regulations, standards and codes of practice appropriate to our business.
- To continually seek to reduce our environmental impact with regard to the use of natural resources (Power, lighting, heating, and water), pollution and waste.
- To set environmental objectives and targets seeking improvement, monitoring progress and adjusting plans accordingly following management review.

In addition the Company has the following voluntary policies and procedures:-

- A preference for vehicles with low CO2 emissions
- Voluntary re-cycling of waste
